Operation

TOMATO SQUEEZER UNIT

Tomato squeezer propeller made in acetal resin suitable for food contact, body in cast iron tested for foodstuffs and treated with epoxy paint for foodstuffs. Nylon tow pin inserted on tin-plated steel. Filter cone, funnel and drip pan are entirely made of 18/10 stainless steel.

For space requirements, the machine is partially disassembled in the packing; it is necessary to insert the tow pin with the spring into the hole in the cast iron body. Insert the propeller into the cast iron body fitting it onto the square of the tow pin. Then put the filter cone onto the propeller pressing and turning it counterclockwise to fit the tabs of the ring nut into the niches in the cast iron body. Screw the funnel onto the threaded neck of the cast iron body and hook the drip pan onto the filter cone and onto the cast iron casing by means of the clips. The machine is then ready for use: the machine must definitely not be run dry (with no tomato).

If the propeller jams, before taking any further action on the machine put the switch onto the "OFF" position and unplug from the electrical socket. When the work is finished, unscrew the funnel, unhook the drip pan, turn the filter cone clockwise to remove the propeller and the tow pin with the spring. Remove the cast iron casing from the reduction gear cover, then wash, carefully dry and eventually grease all the parts that have come into contact with the food. Before replacing the appliance it is advisable to put the red cap back on in the place of the cap with bleed.

Maintenance

- Before carrying out assembly, disassembly, die plate replacement and cleaning operations, switch off the motor and unplug the unit from the electrical socket, to avoid risks of electric shock.
- After every use disassemble, wash and dry all press parts carefully.
- In case of blockage of the press, disconnect the plug cable from the socket immediately to avoid risks of damage the machine.

Maintenance

- Close supervision is required when this product is used near children.
